Clamp Body + Bolt + Cover Plate

3

The technical drawing shows two views of the clamp assembly. The top view is a side elevation showing a rectangular clamp body with a central circular hole of diameter  $\varnothing D$ . The body has a total height of  $H2$  and a width of  $L1$ . A bolt of length  $S$  is shown passing through the body. The distance from the top of the body to the center of the hole is  $H1$ . The distance from the center of the hole to the right edge is  $L2$ . The bottom view is a top-down view showing the same rectangular body with a central circular hole of diameter  $\varnothing D$ . The body has a total width of  $L1$  and a height of  $H2$ . The distance from the center of the hole to the bottom edge is  $H1$ . The distance from the center of the hole to the right edge is  $L2$ . The drawing is labeled **G1** at the bottom.

A 3D rendering of the G1-G8 clamp assembly. It consists of a yellow rectangular clamp body with a central circular hole. A silver-colored metal cover plate is mounted on top of the body, secured by a silver-colored bolt. The body has a yellow cap on the right side.

A 3D rendering of the G1-G8 clamp assembly. It consists of a yellow rectangular clamp body with a central circular hole. A silver-colored metal cover plate is mounted on top of the body, secured by two silver-colored bolts. The body has a yellow cap on the right side.

**G1-G8**

Genişlik / Width: 30 mm
